

2024
Annual **INCOSE**
international workshop
HYBRID EVENT
Torrance, CA, USA
January 27 - 30, 2024

WHAT IS #INCOSEIW?

The INCOSE International Workshop is the premier international event for engaging in working sessions, contributing your knowledge and experience to move the state of the discipline forward. Attendees build networks, perform activities, and produce outcomes beyond their typical network and focus area.

Whether you are already involved in a working group or simply curious to discover what is happening in INCOSE, it's an opportunity not to be missed for sharing and networking with friends and colleagues!

Dates

Saturday 27 January –
Tuesday 30 January, 2024

The Venue

Torrance Marriott Redondo Beach
3635 Fashion Way
Torrance, California 90503 - USA

PROGRAM HIGHLIGHTS

As well as the numerous regular working group meetings, this year's cross-cutting themes are:

Safer Complex Systems

Join industry leaders and experts to explore strategies for cultivating systems engineers capable of exerting influence over the safety of increasingly intricate systems. Delve into stakeholder engagement, narrative building, and consensus-building as essential tools to navigate the challenges posed by modern complex systems.

FuSE: Shaping the Future of Systems Engineering

Dive into sessions with a specific focus on developing the 2024 product and services portfolio. Your participation is crucial to collectively shape the foundations, vision, methodologies and applications of SE, and propel it into the future. Join to forge connections and contribute your expertise to this dynamic journey.

MBSE (Model-Based Systems Engineering) workshop

Join us on the cutting-edge of systems engineering for a riveting workshop! MBSE is the formalized application of modeling to support system requirements, design, analysis, verification and validation activities - beginning in the conceptual design phase and continuing throughout product development to retirement.
